

## DYSPEPSIA

Is that misery experienced when suddenly made aware that you possess a diabolical arrangement called stomach. No two dyspeptics have the same predominant symptoms, but whatever form dyspepsia takes

The underlying cause is in the LIVER, and one thing is certain no one will remain a dyspeptic who will

Start the Liver working and all bodily ailments will disappear.

"For more than three years I suffered with Dyspepsia in its worst form. I tried several doctors, but they afforded no relief. At last I tried Dr. Williams' Pink Pills, which cured me in a short time. It is a good medicine. I would not be without it."—JAMES A. ROANE, Philad., Pa.

"As a general family remedy for Dyspepsia, Tired Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels."—W. J. McLELLAN, Macon, Ga.

There were five cars in the Manhattan Beach train, all of them open cars. The Rockaway train plunged in and plowed its way completely through the two rear cars and partly wrecked the third.

Passengers in the three cars were maimed and mangled horribly, and their shrieks of terror and pain were awful.

The Rockaway engine was wrecked. Its smokestack was carried away, and its huge boiler resembled a pin-cushion from the timbers of the wrecked cars sticking into it. Upon these timbers were human beings impaled, some dead, and others gasping their last. High up on the top lay the dead body of a man, yet unidentified. Upon one of the timbers was impaled the body of Mrs. Oscar Dietzer. Upon another was the body of Sidney Weinstein.

The scene was indescribably horrible. The dead and wounded were massed among the wreckage, besides upon and beyond the tracks. Everything was bespattered with blood of the dead and wounded, and the cries of the latter rose above the hissing of steam and the calls of the frantic trainmen. As fast as the wounded could be taken from the wreck they were carried to the relief hospital and cared for.

The doctors on board worked swiftly but well, while other medical men were out in the wreck applying restoratives and making hurried dressing of wounds to sustain the sufferers until they could be put in the relief train for more careful treatment.

Haberman's tin factory stands close to the tracks at the scene of the accident. This was thrown open and some of the dead and injured were carried in there. One of the physicians stationed here to receive them as they were brought in. When all the wounded had been placed on the relief train it started for Long Island City, where it was met by the only ambulance which St. John's hospital owns. Two of the injured were placed therein and hurried to the hospital, and then the ambulance returned for more. Meanwhile express wagons, horse carts, coaches and vehicles of every sort were pressed into service to get the wounded to the hospital quickly.

Seventeen of them were taken to the hospital in all, of whom two died upon the way, Oscar Dietzer and Thomas Finnlin, a brakeman on the Manhattan Beach train.

Col. E. A. Buck, editor of the Spirit of the Times, is among the killed.

There are also several other bills on the subject ready for the committee's consideration, notably those of the New York Reform club, known as E. Ellery Anderson's, and of Mr. Edward Atkinson, the well-known political economist, of Boston.

Enormous Hailstones. ROME, N. Y., Aug. 28.—Rain fell in torrents here Sunday, accompanied by hailstones of enormous size. The most of them were tomato-shaped, and many of them weighed a quarter of a pound each. In striking the flagging they popped like pistols. Every unprotected skylight in the city was broken. Store windows and goods damaged. Plate glass half an inch thick was broken.

In Georgia female convicts are hired out to work on the plantations as men are. The State's lease price for a convict, \$12.80 a year, is the same for a woman as for a man. On Capt. Maddox's plantation of 6,000 acres, a large part of the working force is composed of female convicts, the men being in separate camps. They go to work at sunrise and return at sunset. Each woman has her mule and takes great pride in keeping them in good condition. They are not shackled, but there is a guard for every ten women. These guards carry pistols, while those for the male convicts carry guns. The women plow, dig, hoe and are as expert as the men.
